

## STUDENTS ENRICH THEIR KNOWLEDGE ON THE MIDDLE EAST CONFLICT

Students in RKYHS Hebrew classes are learning about Israel and the conflict in the Middle East. Every Friday, the Hebrew lesson is dedicated to learning about and discussing this important topic. Students watch short videos that show the borders of Israel and the areas of the settlements. Students look forward to sharing their opinions in Hebrew about the various topics that the videos raise. Students are exposed to listening to different opinions than theirs about both sides of the conflict, and feel comfortable discussing and/or defending their positions. At the end of the lesson, students are asked to write what they have learned during the session.
