STUDENTS GET CREATIVE WITH TEACHING MODEL LESSONS TO PREPARE FOR FINALS

As we are coming to the end of the year, finals are around the corner! To help the students prepare, the girls were divided into groups and each group was assigned a specific perek that we learned this year. Together with their group, the students reviewed their notes on that perek. They were then given a poster that they would need to use to teach the class about their perek. Students were able to be creative and decide for themselves how they were going to teach the class about their perek using their poster. After all the reviewing and creating, the students had the opportunity to become the teachers and taught their peers all about their perek! Some students created comic strips, some made brochures, and others made books. This was a fun and creative, student-centered lesson to help the girls review and prepare for their final.
