## SECOND GRADERS EXPAND THEIR BRACHOT KNOWLEDGE

As part of our Tefillah curriculum, Kittah Bet did a study of brachot that are made before eating food. The students learned the rules for which bracha is made on which types of food. The children made and played iPad games to demonstrate their knowledge of the brachot. To develop mastery and enthusiasm for making brachot, the students participate daily in an inter-grade Brachot Contest. Each of the second and third grade classes earn points for making brachot on their snack independently. Over 6,000 brachot have already been made and recorded! The second graders are now beginning to further their brachot knowledge by learning the rules for Brachot Acharonot that are made after eating.
