

is excited to offer a free class:

PARENTS LEARNING FROM PARENTS

We are excited to offer a great opportunity for parents in Delaware County navigating the world of supporting and connecting with their special child(ren)! Visit our sensory clinic four times in October for open play for your child in a sensory rich environment. While you are here you can learn from our office manager, who also happens to be a special needs parent to two boys and has been on this path for more than a decade now. Get ideas on how to best connect with your child, promote language and seek out experiences in the community. You will also get to meet other parents who are navigating this path alongside you. We hope this will support each family in becoming the best hands on parents they can be, while also giving you opportunities to ask the questions you need answers to, parent to parent.

Who: Families with 2-3 year-olds
receiving services with DCBDD

When: Wednesdays from 10:00-10:45am
October 2, 9, 16 & 23

Where: Sensory Solutions ~ 523 Village Park Dr ~ Powell, OH 43065

Cost: This is a FREE opportunity

Instructor: Sarah Smalley, special needs parent

Space for this group is limited. To sign up for this class please email us at sarah@sensorysolutionsohio.com.
