

We've got **you covered**

Welcome back to another exciting school year in Montana! We understand the obstacles that schools are facing and will continue to overcome in the coming months. While there is uncertainty about how best to safely deliver quality education, we know you are committed to your students' success, and so are we.

At Reach Higher Montana, we've got you covered when it comes to connecting students to future opportunities! No matter where your students are in planning for life after high school, we can help. **ReachHigherMontana.org** is full of free information, tools, and resources to prepare for life after high school.

What will your students find on our website?

- **Plan Your Future** - where students will find a list of items to help them in planning for their future, such as making a visit to their counselor, help with SAT/ACT prep, and how to take the right courses depending on their short and long-term goals.
- **Find Your Career Path** - where students can explore careers with the Montana College Information System (MCIS) to link their skills and talents to find an occupation that matches their interests. If they are interested in hands-on learning while searching for a career, they can also try internships, apprenticeships, and job shadowing.
- **Explore Your Education Options** - where students can search for various ways to pursue their education after high school. There are many options to consider when pursuing your education, such as career and trades programs, certificate and two-year programs, four-year programs, and more. Students can learn more about every education option on ReachHigherMontana.org and find an educational path that best fits their career aspirations.
- **Pay for School** - where students can learn about financial aid, completing the FAFSA, student loans, and more. Scholarships are also a great way to help pay for school, which is why ReachHigherMontana.org features an entire page on scholarships for Montana students, strategies for scholarship success, and scholarship search tools.

We've got you covered when it comes to connecting students to future opportunities!

Stay Informed! Sign up for our **monthly email**, on ReachHigherMontana.org.

Follow us on Social Media for events, news, scholarships, and advice. Join us Tuesdays at 3:45 pm for our informative FB Live events, and every Thursday we share scholarships.

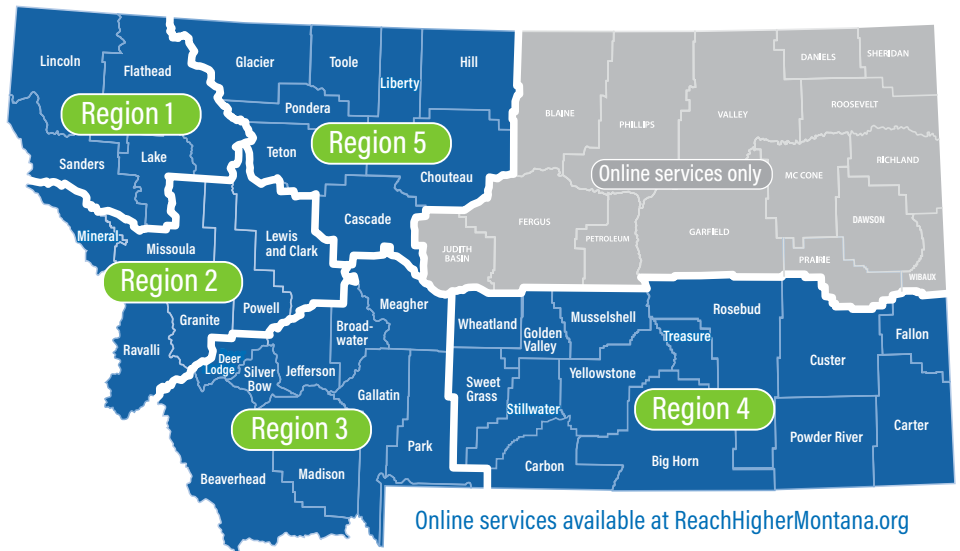

Connecting
students **to** future
opportunities.
