

Ashley Nicholson Bio:

Ashley thrives in an environment that provides constant challenge, and opportunity for improvement. This is why she is successful in leading the Medical Revenue Cycle management team as the Director of Client Relations. Ashley started in the Revenue Cycle Management field over 14 years ago, and her focus on ensuring the client is at the center of every decision has made her incredibly valuable to our Cosentus team and to our clients.

When Ashley is not improving a process, or providing exceptional experiences to our clients, you will find her with her family in Salt Lake City. With her husband of 18 years and their beautiful daughter, they love to spend time together whether it is a quick trip to the mountains or a grand adventure to Hawaii.
