

Member Spotlight: Seacoast RVs

By Ariana Cote, Summer Intern

This month we turn the Chamber spotlight on Seacoast RVs, located on Route 1 in Saco. Now in their 28th year of business, they continue to serve their customers with great service and a wide selection of products which has made them the #1 RV dealer in New England. They offer many different services, such as repairs, seasonal rentals, and consultation, in addition to their focus on sales of new models.

Owner Amanda Blow was kind enough to give us a tour of the facility and educate us more on all they have to offer at Seacoast RVs. They have a 10,000 square foot superstore, which is the largest RV parts and accessory store in Maine. They also have a major focus on RV repair services.

It was interesting to see the wide variety of recreation vehicle types on display, from pop-ups and motorhomes to trailers of all shapes and sizes. Specifically, Seacoast specializes in Kropf Park Trailers, and they are the largest park model seller in New England. We had the opportunity to tour one of them

on the lot and we were impressed with their roomy feel, many amenities, and attractive design.

Seacoast RV's has created an atmosphere for customers that is friendly and welcoming. Whether you need repairs or maintenance on an existing RV, or are interested in purchasing a new RV, Seacoast RV's is the place to go!
