# Chromosome 18

## 30th Annual Family Conference

Three days of families coming together to share, discover, build friendships, and better understand chromosome 18 abnormalities. This annual event is the cornerstone of what the Registry does. The conference truly highlights the impact of research and education for our families and demonstrates why funding both is vitally important to every family affected by chromosome 18 conditions.

Self-Advocate quote:

*"This is the only place on earth where I meet people who are just like me!"*
