

We All Play A Role!

This Spring we are highlighting two employees that work in very different sides of the business but are equally important to Infoshred's overall process, Luis Vazquez, Shred Plant Operations Lead and Katie McGrath, Accounts Receivable Representative.

Luis is working hard everyday with his staff to make sure that all your documents are shredded efficiently in a timely fashion. Katie is assisting and communicating with our customers in making timely payments.

We are very pleased to have them on our Infoshred team!

Luis Vazquez

Luis has been with the company for 9 years. Luis started at Infoshred in the shred plant as a helper and developed into the role of Shred Plant Operations Lead. Luis leads a staff of 3 warehouse technicians in the shredding plant and together as a team they process/shred approximately 7,500 tons of paper per year which is equivalent to saving 127,500 trees! He has worked very hard over his Infoshred career to be open to his own self development as an employee and is now working to help those team members around him with their development at the company.

Luis exemplifies some of the Infoshred's key Core Values in his day to day work activities. He works with his staff each day to make sure that we are *maintaining a safe and healthy workplace, always willing to jump in to help, and protecting the integrity & security of our customers.*

Katie McGrath

Katie has been employed at Infoshred for 2 years. She works diligently and collaboratively with our customers to make sure they are paying their bills in a timely fashion. Believe it or not she's able to add a little humor into the collections process!

Katie has exemplified some of Infoshred's Core Values in her approach towards her fellow co-workers by *showing mutual respect by being kind always, commitment to doing her job, and being diligent.*
