

Cheney Recreation Commission Update May 29, 2020

Click on the links below for your updated program information your child that they are signed up in. Don't forget our summer programs beyond these listed are all online our website at www.cheneyrec.com.

It has been an interesting time for all of us. The youth sports world has been a difficult thing to navigate while still staying hopeful that we can do activities in-person some way somehow. We do plan to still offer all of our programs, some of them may just look a bit different this summer. I understand if a programs new date and time may not workout for you, just make sure and let us know **immediately** if you will not be participating so we can move forward with getting the programs finalized. We will still have some modifications and guidelines to follow that may make things a little not normal, but they are done with everyone's safety in mind.

Most of the facilities we utilize are owned by the USD and the Fair Association so we must follow their rules. Some places may not have restrooms or bleachers available so plan ahead, some of these things may be available as time goes on and permission provided. It is suggested in most activities that participants have their own equipment, but it is not required. Please let me know if you do not have an item and we can assist with checking one out for the season.

I would also like to welcome the new Cheney Recreation Commission Assistant Director starting in June, John Tiemeyer. Many of you may know his family in the area. He will be a great asset to the organization and community.

Please contact the office anytime with questions 316-542-0010 or email brent@cheneyrecreation.com.

Thank you, Brent Peintner, Director of CRC
