

A team of peers dedicated to your success.

Join a group of non-competing business owners who face similar challenges and opportunities. Get sound advice and support from a team that understands your issues.

Albuquerque

Business Owners Councils are designed to support your business.

Often, business owners feel like they have to manage it all on their own. Our Business Owners Councils are small groups that meet monthly to support each other's individual goals. Each month, business owners meet with a trained SCORE facilitator who provides one-on-one coaching, followed by a group roundtable discussion. This structure provides you with a safe place to discuss business issues and preview strategy while getting valuable feedback and clarity from other business owners like you.

Join a Business Owners Council today.

What Business Owners Council members are saying:

"I have a peer group that understands my issues as a business owner."

"The BOC has helped me to have more confidence in major decision making for our business."

"This group is exactly what I need. This is my sounding board."

"Keeps me working on my business instead of working at my business."
