

Greetings OLLI Members,

OLLI North (Pasco County) got a tremendous boost this month with the St. Leo University Open House on Jan. 15. Classes have begun! Thank you Circle 6 for supporting this endeavor.

Meanwhile, the Circles experiment is working. But we still need more members to keep Circles operational on the ground level.

Circles are entirely membership based. If you're wondering what your Circle is doing, you may be the perfect person to make OLLI proud. Bring your ideas and calendar to the next Circle gathering. Just think about how much we can accomplish working together.

Watch for the OLLI questionnaire. The Board Of Advisors wants to know how we can serve you better. Questionnaires are notoriously low priority items. But by participating in the questionnaire, you can send a clear signal concerning your membership engagement and relative satisfaction of the OLLI experience.
