

Boat Tour To Showcase Inner Workings of Port Tampa Bay

Join the OLLI USF Day Trip Committee for a behind-the-scenes look at Port Tampa Bay aboard the Latitude Lindey II. The waterside tour is on Wed., Oct. 15, from 10 a.m. to noon.

Based in the Channelside District of Tampa, Port Tampa Bay (located at 815 Channelside Drive, Tampa) is Florida's largest and most cargo-diverse port. The operation handles 33 million tons of cargo a year, supports more than 85,000 jobs in Central Florida and is a major cruise homeport. The 75-minute port boat tour will include a narrated look at a majority of the Port Tampa Bay complex, traveling around Hooker's Point and back to the starting point.

There is an OLLI processing fee of \$10, and parking is free.

The cruise terminal will be closed that day (no cruise ship). Once parked, guests can gather on the sidewalk in the shade and the Port Tampa Bay guide will greet guests and escort them to the dock. The dock is located on the south side of the terminal between the terminal and The Florida Aquarium next to the American Victory Ship. Unfortunately, the vessel is not wheelchair accessible.

Please arrive at 9:45 a.m. for check-in. Seating is limited to 39 spots. Click [here](#) to reserve your spot (once registered, you will receive parking instructions). The Travel committee contact is Mary Coffeen, (813-789-4295).

All Aboard!
