

In The Spotlight With AI

Volunteers Kathryn Alyson and Krista Kutash hosted a table at the Tampa Bay Times Spotlight on AI in our Communities at the Palladium in St. Petersburg on Sept. 24, which included a panel of experts and 400 attendees.

Our information was very popular with the attendees. Who knew seniors are learning the ins and outs of AI? We do!

We distributed all the materials we brought: the Class Previews, and separate lists of classes About AI – online and in person -- at the USF-St. Petersburg campus.

Don't be shy. Let your friends and neighbors know about the myriad opportunities to live your best life through learning and being a part of OLLI-USF. Word of mouth is our best advertising.

Please contact [Kathryn Alyson](#) to volunteer your talents and let us know of recruitment opportunities.
