665 ORGANIZATIONS URGE REPEAL OF HEALTH CARE TAX ON WORKING FAMILIES

*Patient Groups, Cities, Businesses, and other Household Names Among Organizations
Calling on Congress to Repeal 'Cadillac Tax'*

Washington, DC— Today, 665 organizations including businesses, nonprofits, chambers of commerce, insurers, brokers, unions, and patient advocacy groups signed a letter urging Congress to repeal the 40 percent “Cadillac Tax” on employer-provided health care coverage and sign-on to repeal legislation, the “Middle Class Health Benefits Tax Repeal Act of 2019” (S.684).

The letter, signed by 665 stakeholders, urges Congress to “work together to swiftly repeal the impending 40 percent tax on employer-provided health care before working Americans and their families, who are already stretched too thin, are hit with this onerous tax increase.”

“The overwhelming support for repealing the ‘Cadillac Tax’ crosses party lines, brings together stakeholders across the health care spectrum, and includes businesses of all types and sizes,” said James A. Klein, president of the **American Benefits Council**. “This letter demonstrates not only the urgent need for repeal but the political momentum for doing so. From mom-and-pop restaurants to small towns and well-known patient groups to large multinational corporations, the message is clear: working families are stretched to the limit today—and they can't afford to pay even more for their health care tomorrow.”

“More than 181 million Americans receive health coverage from an employer. Congress now has an opportunity to preserve and protect affordable, high-quality health coverage by putting a stop to this ill-conceived tax,” Klein concluded.

Bipartisan Support: On March 6, 2019, worried that the tax is driving up out-of-pocket costs and making health care unaffordable for working families, Senators Martin Heinrich (D-NM) and Mike Rounds (R-SD) introduced [S. 684](#), the “Middle Class Health Benefits Tax Repeal Act,” to fully repeal the 40 percent tax on employer-provided health care coverage. This bipartisan legislation currently has 37 cosponsors. Similar legislation in the house, [H.R. 748](#), has garnered more than 340 cosponsors.

For more information about repealing the “Cadillac Tax” check out the [Alliance to Fight the 40](#).

Let's work together to keep health care affordable and available for 181 million Americans.

[Click here](#) for the full text of the letter.

*The **Alliance to Fight the 40% Don't Tax My Health Care** is a broad-based coalition comprised of businesses, patient advocates, employer organizations, unions, local governments, health care companies, consumer groups and other stakeholders that support employer-provided health coverage. This coverage is the backbone of our health care system and protects more than 181 million Americans. The Alliance seeks to repeal the 40 percent “Cadillac Tax” on health benefits and prevent increased income taxes on workers, families and retirees who rely on employer-provided health coverage. The Alliance is committed to ensuring that employer-provided coverage remains an effective and affordable option for working Americans and their families.*

#

June 2019

Dear Member of Congress,

The undersigned organizations— representing a diverse group of industries and interests —urge Congress to work with us to protect the health care of the more than 181 million Americans who receive health care coverage through an employer. We are asking members of Congress to cosponsor the bipartisan S. 684, the Middle Class Health Benefits Tax Repeal Act of 2019, and to work together to swiftly repeal the impending 40% tax on employer-provided health care before working Americans and their families, who are already stretched too thin, are hit with this onerous tax increase.

Congress has acted twice to protect Americans from the consequences of the “Cadillac Tax,” but this policy is already causing an adverse effect on the affordability and quality of health coverage available to employees and their families. According to Kaiser Family Foundation 2018 data, since 2010, deductibles have risen 89%, while wage growth has remained comparatively flat.

While this tax was intended to only hit Americans with “gold-plated” plans, the reality is that very modest plans covering low- and moderate-income working families are projected to trigger the tax. The tax will disproportionately tax the health plans of women, seniors, working middle class families, the sick, and the disabled. Small businesses that already struggle to offer health care coverage will also be heavily penalized. This tax has real and harmful consequences – Americans cannot afford to pay more for their health care.

Employer-provided coverage is the backbone of our health care system and the primary source of coverage for the majority of Americans. According to 2018 mid-term election polling, 81% of voters oppose taxing employer-provided health coverage.

The looming 40% “Cadillac Tax” on employer-provided health coverage is widely opposed by both Republicans and Democrats. Over 300 members of the House of Representatives and 30 Senators cosponsored legislation in the last Congress to repeal the tax.

To cosponsor this important legislation please reach out to Andrea Mares with Senator Martin Heinrich (D-NM) and Josh Jorgensen with Senator Mike Rounds (R-SD). Working families are already stretched too thin. Let’s work together to keep health care affordable and available for 181 million Americans.

Sincerely,

ACS Group
