Training Announcement **Custom In-Sight Spreadsheets Max**

The purpose of this announcement is to describe an upcoming training titled In-Sight Spreadsheets Max.

Title: COGNEX – In-Sight Spreadsheets Max

Background: This custom training class has been developed with the goal to provide participants with information on how to use both the hardware and software of Cognex In-Sight Vision Systems. The syllabus was created using student feedback from previous training classes.

Description: Cognex – Spreadsheets Max Training has been developed to give new or potential In-Sight users a 3-day overview of the hardware and software used by In-Sight vision systems. With the focus on getting the most from the In-Sight Explorer Spreadsheets interface, users learn how to walk through the process of setting up a vision application using spreadsheet programming best practices. Students will then learn how to use advanced tools and those tools recently added to the spreadsheets environment to solve real-world applications.

Class Date: **August 8th-10th, 2017**
8:30am – 5:00pm
