

Submit Nominations for PTO Distinguished Volunteer Service Award

The PTO's ability to achieve its goals is dependent upon the work of a large number of volunteers. Without the help of these volunteers, we simply could not deliver as many programs or provide the current range of products and services to the students.

The PTO Distinguished Volunteer Service Award was established to create a formal process for identifying and rewarding key volunteers. This award not only honors individuals who've made significant impact to the students through volunteer efforts, but also serves to encourage others to contribute to the development and growth of the broader school community.

You are invited to nominate someone (yourself included) who you believe merits this award. Perhaps it's someone you've served with on a committee, or a person who has made extraordinary contributions of time and energy to the school. Maybe it's you!
