**Rules of Play:**

The object of the game is to eliminate all opposing players. This is done by hitting an opposing player with a live ball or catching a live ball thrown by your opponent. (A ball is live when it has been thrown but has not yet touched the ceiling, wall, or floor; \*\*note: a ball is still live after hitting a person or another ball.)

If a player catches a live ball thrown by an opponent, two things happen. First, the player who threw the ball is eliminated. Second, an eliminated teammate of the player who caught the ball is reactivated. The first player to have been eliminated is the first player reactivated after a catch, the second person to have been eliminated is the second reactivated, and so on.

During play, all players must remain within the boundaries. Players may only leave through their end-line to retrieve stray balls and must return through their end-line.

The first team to eliminate all opposing players is the winner. Each match will be five minutes long. If neither team has been eliminated at the end of five minutes, the team with the greater number of players remaining will be declared the winner.

Neither team is permitted to control all six balls on their side of the court for a sustained period of time. If you have a dodgeball, throw it!
