

VIRTUAL Summer 2020

Junior Science Lab - \$60 *(includes most supplies, shipping/handling)*

one hour/week, for 5 weeks – **Thursdays, June 11, 18, 25, July 2, 9**

(K-2) 11a – 12n MST, (3-5) 1-2p MST

Explore Physical, Life, and Earth Sciences through lessons on Energy, Motion, Geology, Biology and more. We will make catapults, dissect a seed and explore plant biology, make a model of the lungs, build an Ice Cube Shelter and much, much, more. Worksheets and extra projects for try-it-at-home are also included.

Build & Discover Mini Camp- \$60 *(includes most supplies, shipping/handling)*

one hour/day, for 1 week – **Mon-Fri July 6, 7, 8, 9, 10 10a – 11a MST**

In our *Build and Discover Mini Camp* we will put our skills to the test as we build and create! Using the power of physics and engineering we will make machines that can dive, fly, cook, launch, and see the stars!

Eco-Science Mini Camp- \$60 *(includes most supplies, shipping/handling)*

one hour/day, for 1 week – **Mon-Fri July 20, 21, 22, 23, 24 3p – 4p MST**

Join us for our *Eco-Science Mini Camp*! Be prepared to dig in as we explore the wonders of Earth. Curiosity is key as we observe the properties of water, weather, and biology. Join us to make seeds grow, learn why volcanos erupt, and much more!
