Virtual Totally ToyRiffic

Jan—Feb 2021 \$85

(5-week club, includes most supplies and S/H)

Science and Toys. What's not to love? Become a Toy Technician as you learn the science behind the fun! Explore the world of toys and how they work. Learn about marbles, gyroscopes, and tops. Build your own Electrify Toy. Learn how to power an electric circuit with nothing more than the touch of your hand. Our science workshop is filled with toys that teach. Come and experience the power of play!

Enrollment Closed

Virtual Amazing Animations

Learn to Animate

Jan—Feb \$85 Grades 3-5

(5-week club, includes most supplies and S/H)

Have you ever wondered how Pixar makes movies? How does Pixar do their job? During this 5-week class, students will learn how to create their own animation by using your tablet or phone. Students will learn how to use stop motion and digital animation. Tell inanimate objects a story using the same techniques that the pros use. Students need to provide their own tablet or phone. Software required will be sent prior to class.

Virtual Bristle Bots

Build your own robots!

Feb—Mar 2021 \$85 Grades K-5

(5-week club, includes most supplies and S/H)

You'll mix science with your imagination to design and build your very own motorized, moving Bristle Bot and also make some crazy art with a Draw-Bot. Prepare your bots for drag racing and wrestling. Finally put all your knowledge to the test to engineer the perfect robot critter to take home!

Virtual Flying Saucers and Tabletop Catapults

Apr—May \$85 Grades K-5

(5-week club, includes most supplies and S/H)

Send things flying through the air - spinning, floating, and flying. We will make a mini hover craft and learn about color and frisbees. And don't forget about the catapults. Experiment with levers and make the best catapult. The Viking and the Mini Office Catapult. Note: Some projects may take two classes.
