Why I Love Sterling

In my opinion Sterling is a good place to live, these are my three different reasons why I love Sterling.

First, I was a new girl and I thought Sterling was going to be scary and I thought I wouldn't like it there. On my first day at Sterling before we moved in, we spent the night in a hotel. Just to get to know the place better, we drove around town, that's when I realized what I thought was a mistake, Sterling is really beautiful! As we were driving I realized that statues were everywhere like the man on the horse, or the red horse. I thought the statues were really cool. On our first day in Sterling we also went to a restaurant, named "The Grill," It was a very beautiful place and I was starting to love it more.

After a few days of living in Sterling, I also realized that Sterling really liked to farm. In the summer it was really beautiful, people took care of they're grass and flowers. On my first day of school everyone seemed like they knew everything about Sterling, like where everything is, like stores and fun areas. That's when I knew this was a very small town. Sometimes I would even see a lot of girls and boys from my school at the store.

On holidays everyone was so cheerful and excited, people in Sterling were very celebrative. Some people would wear holiday clothes like thirty days or a month before the holiday. I was glad to finally find a town that really liked to show holiday spirit and joy! Before I knew it I was starting to like Sterling even more and more. After a few weeks of being here, I loved Sterling!

I am convinced that Sterling is a good place to live. I am happy and grateful that I live in such a beautiful place!
