

Why I Love Our Sterling Community

In my opinion Sterling is the best place ever! Do you know why I think this? I will tell you three reasons why.

My first reason is that it has a County fair. The County fair is the best place to have fun. It has a ton of rides like Hurricane, Tornado, and the Fun Slide. It also has a lot of delicious food. If you're hungry while you're in the park then just go get food there. If you're an animal person you can go into the animal house they have. It has a ton of cute animals and it will even let you pet them! Also when you are driving there you can see very pretty lights! They shine like the stars! Also that's how you know you are there.

My second reason is that they have beautiful parks. If you're tired, bored, or stressed then the parks there are the best place to be! You can walk down the path and see all the beautiful trees, the nice scenery, and the play areas they all have! Also the parks have a very nice smell. The smell is like a fresh herby scent and to tell you the smell is amazing! I could smell it all day! By the way, the parks always have benches in the perfect spots! Like under a tree or in the shade.

My last reason is that they have statues and sculptures. If you like old and historic things the statues and sculptures are the best for you! Did you know that the statues there actually represent past people! I know it's cool right! I especially like the statue right next to the popcorn stand! By the way, all the statues have a goldish pigment on them. I think they're made out of gold but it's too old to see. But, the statues are still very pretty. You can also take pictures with the statues!

These are my three reasons why Sterling is the best place ever! If you ever want to visit just think about all the places I told you about.
