Why I love my community is because of the pumpkin patch, Simkins, and the parks we have in Sterling.

My favorite season is fall, and it makes the season more exciting because of Halloween and the pumpkin patch. I love the pumpkin patch because it is kind of a tradition with our family. We go every fall and try to get the largest pumpkin ever. And even if we couldn't find the largest pumpkin we were looking for, they still have the best pumpkins. But we don't just go there for the pumpkins, we also go there to play and have fun because they have the best equipment. The equipment they have is a giant bouncy pumpkin, a corn maze, a haunted corn maze that goes on at night, a big hay stack slide, swings, basketball, and ax throwing for the adults.

Another thing I like about Sterling is Simpkins. Simpkins is in downtown Sterling. Simpkins is something to look forward to at the end of the school day because of their delicious ice cream. Me and some friends go there every first and last day of school. We go there and the moms or dads ask us how our day went and what we did at recess. And normally every last day of school they ask are you ready for next year? Also sometimes if our parents don't yell at us and we get our chores done there family might go and get ice cream. That is why Simpkins is also so looking forward to in the summer and the first and last day of school.

One of the things I love about Sterling is the parks too. Why I love the parks you might ask. I love them because they are updated, allows kids that are different to go, and have different equipment in almost every park. The first reason I said was they keep the parks updated and an example is if there is a hole in the tunnel they would get one that looks like it. But the parks also have stuff for people that have disabilities. And the person who has one can go and swing on a swing. There are also railings so if they can walk but trip they can hand on to the railings. And the last reason why I like parks is that they all have different equipment and themes. Like there is this one park that is supposed to be a farm.

Those three reasons are why I love Sterling. The pumpkin patch in the fall, Simkins for their amazing ice cream, and the parks for the extra energy in the summertime.
