MEET A HABITAT FAMILY

Mumderanji has two children, 8-year old Jeffrey and 11-year old Modestar. She lost her husband in 2011. Mumderanji is also taking care of her four younger siblings, following the death of her mother. She used to live in a small, dilapidated house and could not maintain it as she was often sick and therefore unable to earn income. The house later collapsed and Mumderanji has been staying in her sister's house. She explains: *It was raining heavily that night. We woke up and stood in the corner of the house when we heard a loud bang. One of the corners of the house fell in. We ran outside and in a few minutes the whole house collapsed. We lost everything. The new house*

comes at a time when we need it most. We thank Habitat from the bottom of our hearts.

My name is **Ron Baesler**. I have led six International Thrivent Builds with Habitat for Humanity trips in the past five years. In every case I have been joined by dedicated, enthusiastic men and women with a heart for service. On every build we have been able to help families gain a safe and solid place to live. We have not simply built houses, we have built homes. I look forward to gathering a team that will make the dream of a home come true for a family in Malawi.
