In search of…

A CHURCH MUSICIAN

Carlton Hills Lutheran Church (ELCA) in Santee is searching for a musician to help lead Christian worship in a Lutheran key on Sunday mornings. The small but established congregation seeks someone who would be able to lead congregational hymns from a variety of sources, both modern and traditional, primarily with a keyboard instrument, and perhaps to stretch the congregation into some new musical styles. They would be working to coordinate music with the Pastor and the Music Director, who also leads a small choir in singing, and accompanying that choir (including rehearsals)

The church has 2 pianos available but is open to considering the use of a keyboard (not currently available). There is an organ onsite that was played by our previous musician, which would be considered a plus for a new musician who had experience with an electronic organ or would like to become proficient. Some familiarity with ELCA liturgical form would be helpful.

The church building is a beautiful mid-century structure and a great setting. Our 9am worship setting is ideal in the summer, since the building is not air conditioned. Salary is "per service" and commensurate with experience; pay is bi-weekly via direct deposit.
