SUBJECT: FLU VACCINATIONS

The Department of Corrections would like to remind all AICs that getting the flu vaccine is safe and easy—and the best way to protect ourselves and others from the flu. The vaccine is especially important this year, with COVID-19 making more people sick.

The flu is a serious illness. By getting your annual flu vaccine, you are doing your part to keep yourself and those around you healthy—especially older people, people in congregate care, and those with chronic diseases.

The flu vaccine is available to all AICs, takes only a few minutes to get, and is safe and effective. It cannot give you the flu. DOC Health Services will provide the vaccine to any AIC interested in receiving it. Each AIC will be called out and asked to accept or decline the shot.

It's also important to get the vaccine every year because the flu virus changes from year to year. Each year, the vaccine is updated to target the strains of the virus that are most likely to get us sick. You can also get the flu vaccine at the same time as a COVID-19 vaccine or booster.

ASUNTO: VACUNAS CONTRA LA GRIPE

El Departamento Correccional desea recordar a todos los AIC que vacunarse contra la influenza es seguro y fácil, y la mejor manera de protegernos a nosotros mismos y a los demás de la influenza. La vacuna es especialmente importante este año, ya que el COVID-19 está enfermando a más personas.

La gripe es una enfermedad grave. Al recibir su vacuna anual contra la influenza, está haciendo su parte para mantenerse saludable y mantener saludables a quienes lo rodean, especialmente a las personas mayores, las personas en cuidado colectivo y las personas con enfermedades crónicas.

La vacuna contra la influenza está disponible para todos los AIC, toma solo unos minutos y es segura y efectiva. No puede darte la gripe. DOC Health Services proporcionará la vacuna a cualquier AIC interesado en recibirla. Se llamará a cada AIC y se le pedirá que acepte o rechace el tiro.

También es importante vacunarse todos los años porque el virus de la gripe cambia de un año a otro. Cada año, la vacuna se actualiza para atacar las cepas del virus que tienen más probabilidades de enfermarnos. También puede recibir la vacuna contra la influenza al mismo tiempo que una vacuna o un refuerzo contra el COVID-19.
