

## CBH Religious School 2024-2025 Curriculum Overview

This year, we will have the privilege of teaching our students from an immersive curriculum designed to cover important Jewish values like **taking responsibility for one's actions, honoring the image of God within ourselves, using one's inner and outer strength like many heroes in Jewish history, doing what you can to make the world a better place, seeking joy and being grateful, understanding the power of words, and helping to create a calmer, more peaceful world.**

Students in each grade will learn these values in age-appropriate ways, with the common goal of building a stronger and deeper understanding of the topics each year. Categories that students will focus on in order to learn these topics, ranging from the youngest to the oldest students, include **family, self, peer, community and the world**. These categories will be different for each class, and give each individual group of students their own perspective on the content throughout the year.

Each class will also have opportunities for hands-on instruction, where they will either come together as a class, or as a school, and enhance their learning by doing- discussing- creating and more. Our goal for this year is to fully immerse students in what they are learning, motivate them to ask questions, and overall, provide them with a meaningful and enjoyable Jewish experience each week. If you have any questions, please don't hesitate to reach out. We are looking forward to partnering with you this year on this exciting journey.
