

# MBER Intro / Refresher July 7 - 9, 2025

VIA ZOOM

## NEW TO MBER? → INTRO WORKSHOP

This 3-day **virtual institute** will be held via Zoom and will contain many of the same elements of our previously offered in-person 4-day institutes. The experience is designed to help you navigate the collection of MBER tools, links, strategies, and resources. You'll receive a lifelong membership to the MBER community, as well as access to the full year of NGSS-aligned high school biology and earth science-integrated curricular materials.

## ALREADY AN MBER USER? → ADVANCED TOPICS

Depending on interest, we will host separate breakout discussions and activities to engage in "advanced topics" and conversation about the successes and challenges in implementing MBER. Use the same registration link and indicate that you are returning/experienced.

### WHEN

July 7-9, 2025  
9:00am – 3:00pm  
(daily break from 11:30am – 12:30pm)

### REGISTRATION FEE
