

01.12.2024

Dear Parents,

The theme of the week was “Bugs and Insects”. Playground and garden time was perfect to observe them. The children could see ants walking on the wall or the trees, different kinds of butterflies flying around us, and spiders in their webs.

During Circle Time we learned new words magnifying glass, ladybug, and calipitter. We sang Itsy Bitsy Spider and they enjoyed listening to the “beehive finger-play”, especially when the bees escaped and went to tickle them. For Art, the children used to Do.A.Dot markers and Play-Doh. They also made the cute ants using paper towel rolls.

During story time, we read books about bugs; they all had big and clear images for them to see and distinguish colors as in The Very Hungry Caliper. As they grow, they like more and more holding their book and turning the pages.

A word about the importance of reading to children at an early age.

It has been found that “Hearing fewer words leads to learning fewer words” which leads children to be slightly delayed in their vocabulary and reading skills as they start kindergarten. Reading to children will impact their lives in the long run for sure. If you ever need any help with reading at home or materials, do not hesitate to reach out for help from Kids for Kids, we are here to help every one of our parents and are full of resources and helpful information!

Have a beautiful weekend!

Mrs. Yanet, Mrs. Sofia, and Ms. Krystelle
