

1/21/22

Dear Parents of Blue Door,

Hi, This week the children learned about the Weather. During Circle Time the teacher spoke about the different types of weather there is such as windy, rainy, sunny, and cloudy. As they played on the playground the teacher asked them how the weather was? They responded that some days it was windy, cloudy, and sunny. When asked what is it that they wear when it is cold we heard responses like a sweater, coat, long pants, and hat. When it rained what was it that they used to not get themselves wet? We heard responses like they wear a raincoat and sometimes wear a sweater with a hat and of course an umbrella.

For Art, the children enjoyed painting their sun yellow and adding the orange and yellow rays to their sun. Rainy day umbrella was also lots of fun. They used do.a.dot markers to decorate their umbrella and glued their handle to it. They did a great job! Rain cloud craft was a blast they filled in a cloud shape using cotton and then dipping their little fingertips into the blue paint and onto construction paper represented the rain. They stacked and built anything they liked using Legos and blocks. Putting together puzzles was lots of fun. They played different instruments in class and had lots of fun marching as well.

Parents, please reinforce colors and shapes at home. Reinforcement is very important. Also, please practice on how to hold a crayon correctly. Here at school, we work on our fine motor skills very hard. Please wash your child's blanket to be returned to school nice and clean on Monday. We hope you are enjoying the pictures of your child here at school.

Have a nice weekend!

Mrs. Cindy
