

11/19/21

Dear Parents of Rainbow Door,

Hello!! The children have learned so much about the Thanksgiving tradition this week! But that isn't all, they have also gone over their shapes and all the different sizes our shapes can come in. They were able to use the board to draw shapes, some big, some small, and some shapes inside of other shapes. We played alphabet games and guessed how many words start with our letter of the week, letter "G". Did you know one of the words that start with "G" is Goat?

The children had so much fun tracing and decorating the letter "G" this week. They also had a great time decorating and putting together their turkey headbands, making their turkey handprint card, and drawing their own turkeys in their journals! For their turkey cards, the children were able to use paint and construction paper by dipping their little hands in brown paint and their fingers in different colors that represent the feathers and placing them onto the construction paper. They also did a great job learning to trace their own hands in their journals and creating turkeys.

For story time we read "The Story of the 1st. Thanksgiving" "No Turkey for Thanksgiving."

For the next short week, we have no student of the week.

Parents please, wash your child's blankets to be returned on Monday. Also please cut short your child's nails, so they don't scratch themselves or their friends.

Please, help your child at home on how to hold correctly the pencil, marker or crayon.

Quote of the week: "Education is not the Learning of facts, but the Training of the mind to Think" By: Albert Einstein

Have a wonderful weekend,

Ms. Miriam S.

Ms. Karla
