

4.29.2022

Hello, Parents of Rainbow Door!

The topic of this week was outer space 🛸 We learned all about the different planets and shared what some of their names are. A few names the children knew were Saturn, Pluto, Mars, and of course Earth. We also learned about space travel and what rocket ships could do. This week we also had a very special guest join us for a very special art time, Mrs. Sanchez, mommy to our very own twins Julian and Andy. All of Rainbow Door would like to say thank you for joining us in our outer space adventures.

For art we created flying Aliens in their UFOs 🛸, we used green paint our hands, scissors, construction paper, glue and googly eyes. We also made alphabet rocket ships using our names, construction paper, markers, and glue. The construction paper was cut into squares and each letter of our name was placed on each square. The children then had to place the letters in order to form their names creating the body of the rocket ship. They also used outer space theme stickers to create their very own alien headbands and last but not least they made beautiful spaceships with this week's special guest by using scissors, crayons, tissue paper, glue and stickers.

For story time we read One Small Step. There Was an Old Astronaut Who Swallowed the Moon by Lucille Colandro. Pete the Cat: Out of This World by James Dean, and The Magic School Bus: Lost In the Solar System by Cassandra Morris

Parents, please remember to continue practicing with your child at home and to help them hold their pencils properly which is an important motor function. Also, please wash all your child's blankets and return them to school Monday morning. Please label anything that is theirs with their name and remember to cut your child's nails so they don't scratch themselves or others.

Quote of the week: Education is not the filling of a pail, but the lighting of a fire. -William Butler Yeats

Have a wonderful weekend!

Mrs. Miriam

Ms. Karla
