Dear Parents of Blue Door,

This week we learned about Arctic Animals such as the arctic Penguin, Walrus, Polar Bear and Arctic Wolf.

The children were also shown pictures of other animals that live in the arctic. During circle time the teacher reviewed the colors and shapes. Each child was asked to identify one color and one shape. Please review with your child at home the colors and shapes. Reinforcement is very important.

For art, the children made an arctic Penguin they glued the white shape construction paper on top of the black construction paper that was already cut in the shape of a penguin. They glued the eyes, beak and feet on the penguin as well. For the arctic walrus they colored a paper plate brown using crayons and glued the eyes, nose, whiskers and tusks on their walrus. Using cotton balls on a small paper plate they made their polar bear and circles were used as the bears eyes and nose. When in doing their igloo they glued white construction squares to pretend it was snow. When asked what an igloo was, the children responded a snow house. Their favorite thing was rolling and flattening playdoh. They made all kinds of different things such as snow balls and happy faces.

Parents please don't forget to wash your child's blanket and return to school on Monday.
