

06/25/2021

Hello, Parents of Silver Door,

This week we started our passport to fun! Each week we will "visit" and learn about a new continent and focus on one country in that continent. This week we learned about Africa and the country Nigeria. Some crafts we did was the flag of Nigeria, a beautiful necklace, and an elephant. Throughout the week the children were able to see pictures of the streets in Nigeria and pictures of animals that are popular in Africa like lions, giraffes, and zebras.

For our STEM activity this week we built attractions like a rollercoaster and a merry-go-round. The children really loved this activity because they were able to work together to build something and test if it works. This kit has a lot to do so we are extending it for one more week so the children can learn and enjoy more of the attractions build.

On Wednesday, we had an in-school field trip. Two people from Miami Children's Museum came to read us some stories. It was lots of fun!

Some of the stories we read in our class is "The Napping House," "Mmmm.... Cookies!", and "Ben's Bad Day."

In soccer we practiced dribbling the soccer ball and kicking it back and forth to our friends.

As always, please pack a water bottle and hat for our outside time.

Have a great weekend,

Ms. Adriana and Ms. Sammy
