

05.10.2024

Dear Parents,

This week was fun learning about Music and Instruments. The children learned the name of different instruments such as: piano, flute, tambourine, guitar, drums and the violin.

Circle Time: We are currently calling up one student at a time to point to the letter that the teacher asks and they say it's sound.

Art: This week the children made tambourines using paper plates, paint, and colorful tissue paper. They made a guitar and musical notes using construction paper, markers, and crayons to decorate it. They also made various Mother's Day crafts like flowers and handprints.

Music and Movement: This week the children stand up and sit down. During soccer, they played games, ran, and kicked around a soccer ball.

Our student of the week was Matthew. Rainbow Door loved watching Matthew presenting his poster, we learned so much about our friend!

Next week, we will learn about the Garden. 🌱

Quote of the week: " Be bright, Be happy, Be you.

Have a wonderful weekend

Mrs. Miriam & Ms. Ashley
