

01.12.2024

Dear Parents,

Hello 🙌. This week the children learned about Transportation. They learned about some of the different kinds of transportation there are. There is land, air, and water transportation. Some of the land transportation that were spoken about were bicycles 🚲, motorcycles, school buses 🚌 and trains. The air transportations that were spoken about were airplanes ✈️, Hot air balloons, Helicopters 🚁 and Rockets 🚀. Some of the water transportations that were spoken about were Ferry 🚢, Boat 🚤, and Submarine .

For art, the children loved making those transportation tracks. The children chose what transportation they wanted to do their art with and were able to. Hot air balloon was a last, the children decorated a small plate using Do.A.Dot markers and then added the popsicle sticks and basket to complete their hot air balloon. Also, the teacher layed out on the carpet all different types of transportation and asked each child to choose the transportation she had said.

For story time they listened to these stories: No More D for Ducky, Pete the Cat, Old MacDonald Had a Farm, BrownBbear, Brown Bear What Do You See?, The Very Hungry Caterpillar, and Hands Are Not For Hitting.

Our gross motor skills are just as important as our other skills. This week the children hopped in place, touched their toes trying not to bend their knees, tiptoed around the playground, took turns jumping in place, and threw the balls to one another.

Parents please was your child's blanket and please continue on reinforcing colors, shapes and how to hold a crayon or pencil correctly. Please make sure their nails are cut short so that way they don't scratch themselves or their friends.

🦋 Thank you once again and have a great weekend 🦋

Mrs. Cindy
