Dear Parents of Blue Door,

Hello! This week we talked about our mommies. During Circle Time the teacher asked each child what are the things they like to do with their mom. Some of the answers the teacher heard was was going to the park, eating ice cream, playing with the cars and doing exercise.

For art the children enjoyed very much making their surprises for mommy, they were so happy and excited. They made an art surprise for their moms that was called I love you to pieces in where the children were given a heart and they glued pieces of construction paper to the heart. Handprint Cactus Handprint was lots of fun. The childrens hands were traced and then they glued it to the pot. For the cupcake handprint project they dipped their hand into paint and then onto construction paper and then glued the precut cupcake liner to their handprint which represents a cupcake. As the saying says" moms are like buttons they hold everything together". The children were given a heart and buttons and they glued the buttons onto the heart. This one came out soo cute. Playing with Play-Doh is always fun. They love to roll and flatten the Play-Doh and use different Play-Doh cutters.

Parents please wash your child's blanket and please cut your childs nails so they do not scratch themselves or their friends.

In practicing their gross motor skills on the playground they jumped in place, threw the ball to one another, skipped in place, marched all around the playground and rode the tricycles. Going up the stairs and down the slide is another favorite.

We wish all the moms a very Happy Mothers Day . Enjoy your day with your family. Have a nice weekend.

From,

Mrs .Cindy

Mrs. Miriam
