

04/14/2023

Dear Parents of VPK Classes,

The topic of the week was Transportation. We talked about vehicles and a whole world of transportation. We learned about the three modes of transportation, air water and land. We asked them to name different vehicles, such as cars, planes, and trains . Learning about transportation, in general, helps preschoolers expand their world view. Children are curious about the world around them, so exploring common topics like this one helps them categorize and make meaning. Transportation is an important part of everyday life, and as such is a topic children are interested in. A transportation theme not only teaches children about what different vehicles are for and how they work, but you can also use it to teach other important concepts such as safety when riding in a vehicle or walking. We used a variety of games, books , songs, individual pictures and many crafts to teach them the concept as it will help them remember important information.

We had a great time at the field trip with writer Kentrell Martin. They all got a signed book , KJ's Emotional Day. A book that teaches how to communicate using American Sing Language (ASL).

On Friday, we had our last music class with Ms. Clarice. It was awesome! We are sad to see her go, wishing her the best!

Finally stoped raining and we had the chance to go to the field a enjoyed a great soccer class with Mrs. Jackie .

Quote of the week:

You worried about your 10 minute drive to work?

Remember truckers are on the road all day and night.

Rain or shine snow or ice! They go to work.

Have a safe weekend,

Mrs. Marta, Mrs. Miriam

Mrs. Ana, Mrs. Nadia
