

07.05.2024

Dear Parents:

This week we learned about our Country, " United States of America". During Circle Time, the children learned about the 50 different states in America.

They also learned about the State we live in (Florida). The teachers showed pictures of the most popular animals in Florida (birds, fish, snakes, crocodile). The children learned about the Statue of Liberty, how she is a landmark that represents America's freedom, that she was a gift from the country of France.

For art, the children used crayons and markers to color the American Flag, the map of the United States, and they traced and decorated the abbreviation U.S.A.

They used glitter and glue to represent fireworks. Finally they used brown bags to make the American eagle.

Music and movement: The children enjoyed Karate and Ballet this week, and were excited to show the teachers all of the new skills they have been learning. On Friday we had a dance party to celebrate a great week!

Books we read:

- Hello America
- What is America
- Four of July
- Duck for President.

Quote of the week: " America is not just a country, it's an idea " -Bono

Have a nice and safe weekend!

Mrs. Ana, Mrs. Mireya
