

05.26.23

We want to thank each child for all the warmth, memories, and the learning that we have shared this school year. WE say thank you! This past year we have grown together a little bit of each of you will always be with us. Always strive to be the best you can be 🧡 to the parents. We say thank you for allowing us to be your child's teachers. It has been a wonderful and rewarding year for us. We will love and miss our little scientists. 🧡

The Activity: Dinosaurs footprints Material: Dinosaurs toys, Ink pad, and construction paper. Directions: the children will apply the dinosaur feet on the ink pad and the construction paper.

Activity: Sensory Material: Play-Doh. Directions: the children will use a dinosaur to make a footprint on the Play-Doh.

Move Like They Did; Talk about how Dinosaurs moved (fly, walk on 2 legs, on 4 legs, little steps, big steps? As you discuss each one, have the children move to the other side of the playground like that dino!

The children visited all center areas like housekeeping 🧹, and block area. The children got to explore all center areas, and during playground time, we worked on gross motor skills and did activities like playing catch, running around the playground three times, jumping with the teachers, and popping bubbles.

Reminders:

Parents, remember to continue potty training at home, we are so proud of all our little ones who are working so hard and making progress! Please bring your child's blanket and pillow nice and clean for next week!

Have a wonderful weekend, and stay safe!

Love,
Mrs. Yanet, Mrs. Yeysleydy, and Ms. Krystelle 🧡
