Hello Parents,

This week we learned about our "Community Helpers". The kids learned how important our community helpers in our daily life are. During Circle Time, we reviewed the letter "Cc". We also mentioned some community helpers such as: Firefighters, police officers, mail carriers, nurses, doctors, constructors, teachers, etc. The kids enjoyed this topic and all the books we read about it. Some of the kids even shared with us what mom and dad do at their jobs.

Rainbow Door:

During art time: The kids made a fire truck using: red, black, white, and yellow construction paper. The kids also made a police officer hat using a paper plate and blue paint. On another day the kids worked in their journals by tracing and decorating the letter "C" for community helpers. Finally, the kids made a doctor's first aid kit out of construction paper by using: Band-aids, cotton, Q-tips, gauze, and a popsicle stick.

Orange Door:

For art, the children traced, colored, and decorated the letter "Cc". They used construction paper, rectangle shapes, circles, and popsicle sticks to make a Fire Truck. The children also traced and colored the community helper hat of their choice, and used white paint, crayons and construction paper to color a dentist's tooth and toothbrush. The last but not least, they colored the shape of a police car, then they added the wheels and the blue and red lights.
