Dear Parents of Silver Door,

In language arts and reading we worked on the long e vowel sound that has vowel pairs like ee, ea. Some words were feet and seal. To help remember some of our spelling words, we came up with the song, "Double ee's". Our class story this week was "EEK! There's A Mouse in My House!" It was a very silly story that dealt with a little girl that wanted to get rid of a mouse in her house. So, she asked different animals for help. Some animals were cat, dog, horse, and even an elephant! Unfortunately, none of the animals were able to help the little girl and the mouse stayed in the home! We reviewed finding naming words like animals and people in sentences. We also discussed rhyming words and went on a hunt in the story we read this week.

In math we continued on with Chapter 7. This week we were taught how to draw a diagram to find missing numbers in a problem, how to put numbers in order from least to greatest or from greatest to least, and how to use a number line to order numbers. Next week we will be finishing the chapter and taking our chapter test.

In Science, we presented our Landform Diorama. Everyone had to talk about which landform they made, how they made it, and how either weathering or erosion helped create it. Then we focused a little bit more in Social Studies.

In Social Studies, our topic was Dr. Martin Luther King Jr. We had a group discussion by talking about who he is and what important things he did for us. We then did a paper on I have a dream where we had to write down how we can make our school and home a better place.

"Kind is the new cool."-Anonymous

Have a wonderful weekend!!

Ms. Sammy
