

03/26/2021

Dear Parents,

We had a few children sick this week and I want to thank the parents of those children for keeping your child home.

It's incredible how fast the weeks go. When we look at the children, we realize how fast they change and learn. Some have emergent language skills, other will soon walk! As they grow, they are able to focus better. Our Circle Time now lasts longer and the children participate well doing finger-play or clapping their hands.

For Art, the children painted on a paper with green paint, we practiced a lot using Play-Doh and making little and big balls .They used a Green do-a-dot markers to color a construction paper. They all colored papers with crayons or markers.

**Information For Parents:**

Young toddlers seem to learn something new every day. During their 2 year of life, toddlers learn many important gross motor skills such as walking, running, climbing stairs with one hand held and throwing a ball. They will also learn fine motor skills such as scribbling with a crayon, pointing and putting objects in a container. They will be playing games such as "Ring Around the Rosy" and "The Hokey Pokey" to help them become more coordinated and balanced in their movements.

**\*Reminder\* PLEASE DO NOT BRING YOUR CHILD TO SCHOOL IF THEY ARE SICK OR HAVE A RUNNY NOSE!**

Please bring extra clothes including sock, 4 sippy cups, and please trim your child's nails to avoid accidents.

Thank you, have a fun and safe weekend!

Ms.Yanet, Mrs.Yeysleydy, Mrs.Mireya, & Mrs. Madelayne
