

06.14.24

Dear Parents of Kindergarten Students,

I hope that you had a wonderful week!

My name is Mrs. Wanda, and I will be your child's teacher in the summer and for the coming Kindergarten year.

This week, we got to know each other and got used to the new routine. The children are getting used to sitting at desks, not napping and following a different schedule than what they had in VPK.

This week, we worked on Father's Day projects, which the children took home to surprise their fathers. They made a beautiful card, a picture frame, and a tie.

This week's S.T.E.M. Activity was Amusement Park Engineer. The students worked together to build Robby the rollercoaster, Mary the Merry Go Round, and Bob the Bumper Car.

We had a theme for art and story time, which was Transportation. They worked on making a train where every wagon had a letter of their name. This activity allowed them to count how many letters are in their name and also spell their name. They also made a picture of a boat by using different shapes.

During story time, they read books about police cars, ambulances, fire trucks, and rescue boats. We discussed these types of transportation, which are emergency vehicles, and compared them to the type of vehicles that we use every day.

This year, we have 30 minutes where they get to watch something instructional on television. They have been watching Syd the Science Kid. This week, they have learned about brushing their teeth, washing their hands, and what happens when we apply heat to food, for example, when making pancakes.

They also have physical education every day. This week, they have not been able to go outside every day because of the weather, but they have had indoor games with Ms. Jackie, which they enjoyed.

It has been a busy and fun week.

Have a wonderful and safe weekend!

Happy Father's Day to all the fathers!

Mrs.Wanda
