

2/11/2022

Dear Parents,

We spent a lovely week getting ready to celebrate Valentine's Day. We focused on the "heart shape." The children colored a paper bag using pink, purple, and red "Do-A-Dot" markers and decorated it with heart stickers. They glued heart foam shapes on construction paper, they made a beautiful heart handprint and other surprises.

Love is everywhere and the children are getting along so well. They like to express their love to each other as they also show their love to their teachers giving the best hugs ever!

The children enjoy all the activities during the day, storytime, music, and playground time is always much appreciated, and especially when we blow bubbles, there are always big smiles on their face and laughter.

We want to thank all of you for keeping your child home when he/she is sick, preventing the spreading of diseases.

Have a wonderful weekend!!!!!!

Mrs.Mireya, Ms. Leiteria, & Ms. Lauren
