

01/03/2023

Dear Parents,

Our theme for this week is insects, bugs, and crawlies. We talked about insects that fly like bees, mosquitoes, flies, butterflies, and ladybugs and the ones that crawl such as centipedes, caterpillars, spiders, beetles, and roaches.

During Circle Time, we sang "The Ants Are Marching One By One", "Itsy, Bitsy Spider" "Shoo, Fly, Don't Bother Me" "I'm Bringing Home a Baby Bumblebee" and they really loved listening to the finger play "Here is the Beehive" as they were waiting excitedly for the bees to come out and tickle them!

To learn about caterpillars and butterflies, our favorite book was "The Very Hungry Caterpillar" by Eric Carle.

For art, the children had the opportunity to use Do A Dot markers, they finger painted with black paint to make insects and finally, they colored a construction paper with crayons using the color of their choice.

They also had a lot of fun playing with the sensory bin looking for hidden toys insects.

Music class with Ms. Clarice was great as she provided egg shakers for each child to play with.

In the playground, we took a magnifier and tried to observe ants climbing on the tree and also looked up for spiders and butterflies.

Have a wonderful weekend with your family.

Mrs. Karla & Ms. Kasey
