

05/12/2023

Hello Parents,

The topic of this week was “Mother’s Day”. During Circle Time, the children got to express their love for their moms and grandmas. Circle Time is a great time for children to learn the social skills of being together as a large group. We also told them there are different ways to say mom, such as: Mom, mother, mami, mama, mum, etc. Mother’s Day is a very special day when we can express love, respect, and thanks to our Mothers. The day is observed by giving gifts, visiting, or taking our moms out for dinner and/or a celebration. We continue reviewing the calendar, the weather, the alphabet, and the numbers.

ART/SMALL GROUP: The children enjoyed making art activities for their mothers. We made hearts and jars, and they also worked in their journal by tracing and decorating the word: MOM. Materials we used: Construction paper, markers, crayons, glue, paint, ribbons, cardstock paper, scissors, etc.

SOCER: Ms. Jackie is helping the children to learn balance and coordination. We kicked the ball and played soccer altogether.

LAB: This time, the kids used their magnifiers to see the glass-encased insects, and then we had them tell us what they saw and what type of insect it was.

BOOKS WE READ: “Pocket Full of Kisses”, “Love You Forever”, “Night Before Mother’s Day”, “I Love You Because You Are You”, “Are You My Mother?”.

MUFFINS WITH MOM! We made the mothers of our class feel so special, even with the smallest details. We could tell that each mother loved the time they spent with their children during breakfast time. We from Rainbow and Orange Door would like to say thank you for allowing us to take a little time out of your day to surprise you and make you feel loved and special.

NOTE: Please don’t forget to take blankets home on Friday to be washed and returned on Monday. Please ensure your child always has a change of clothes in their cubby. Please remember to cut your child’s nails to prevent accidents from happening.

TIPS: We encourage you to ask your children every day what they did in class, and practice the letters and numbers. Also, read with them the lesson plan of the week to reinforce what they are learning for the week. Thank you for all your help.

HAVE A VERY SPECIAL MOTHERS DAY!

“Mom” means everything.

Mrs. Zamira, Ms. Mireya, Mrs .Miriam, Mrs. Carolina
