

1/21/22

Dear Parents,

Just like the weather, we had another chilly topic for this week as we learned about polar animals such as the penguin and the polar bear.

During Story Time, the children enjoyed listening to stories about those animals. Their favorite story was about a polar bear who likes to play with his friends sliding on the ice and at the end of the day snuggles with Mommy.

For art, the children made a penguin footprint using black and white paint and they dipped their fingers in the white paint to make the snow. They also made a polar bear, gluing white tissue paper on a small plate and adding eyes and nose. Our sensory activity was fun and chilly: the children could touch and observe ice cube melting.

We were sad to learn that this is Matias' last week with us as he is leaving the school. We will miss him dearly!

Reminder: please check regularly your child's nails; when too long, they can easily scratch a friend or themselves by accident.

Quote of the week: It's practically impossible to look at a penguin and feel angry _ Joe Moore

Have a wonderful weekend with your family.

Mrs. Murielle & Mrs. Zamira
