

05.13.2022

Dear parents,

The topic this week is bugs and insects! The children enjoyed seeing and hearing different animals and did an excellent job with the sounds of the animals and each child had the chance to tell us what animal they hear!

Circle time: "good morning, where is the beehive?, itsy bitsy spider, the ants go marching one by one, miss muffet, I bringing home a baby bumble bee".

Small group/art: Each child painted a red plate and with help dipped one finger into black paint to make a lady bug! We also enjoyed playing with magnets, we connected them and separated the colors then had the children show us where they go. We cut out a oval shape and the children used yellow and black crayon and paint to make a bee. Lastly the teachers cut a circle shape and used different colors to make a caterpillar.

Music: We moved our bodies and sang with Mrs. Clarice " hey hey what do you say?" With the guitar. We wiggled our fingers, twisted our body, rolled our arms and moved our elbows. Then the children shared a drum to help Mrs. Clarice make the perfect sound. Lastly, we heard a story "Pete the cat" and ended music class with the ocean drum!

Playground: The children run with their friends and teachers, go up the stairs and down the slide, go on the swings and play with the balls the children love racing each other in their cars!

Please make sure to send in clean clothing for your child every week so we are able to change if dirty.

Have a wonderful weekend!

Mrs. Miriam & Ms. Gabriella
