

08.02.2024

Dear Parents of Kindergarten Students;

I hope that everyone had a wonderful week!

At Gold Door, the children worked on crafts with the theme of pets. They made a rabbit's face, a cat's face, a turtle, and a fish. During these craft activities, they traced, cut, and colored to create these. For the stem activity, they continued to work on creating different structures with Legos. They built a robot and added wheels to make it move. They also built a plane and a truck, which they attached to a tractor.

They also saw Syd the Science Kid. Some of the themes that they saw were Holidays and Brushing Teeth.

During reinforcement, the children continued reviewing letters, sounds, patterns, and numbers. We also had soccer every day with Ms. Jackie, which the children enjoy and look forward to every day.

Next week is our last week of summer camp, which is also a short week. We will be closed on Friday to prepare for the school year.

Have a wonderful and safe weekend!

Mrs. Wanda
